Cotton Laces

Decoration Pullers for Zippers

Metal Plates

Fashion Elastic Tapes

Satin Tapes

INVISIBLE

*Invisible Zippers have the teeth hidden behind a tape, so that the zipper is invisible.
The tape's color matches the garment's, as does the slider's and the puller's.
This kind of a zipper is common in **Skirts and Dresses**.*

PAINTED SLIDER

PLATED SLIDER

POLYESTER

Some zippers include a designed ability for the slider to hold in a steady open or closed position, *resisting forces* that would try to move the slider and open the zipper *unexpectedly*.

METAL CLOSE END

POLYESTER

Polyester Zippers can be painted to match the surrounding fabric: plastic zippers.
Used most popularly for pencil cases, small plastic pouches and other useful stationery.

METAL

A less common water-resistant zipper is similar in construction to a standard toothed zipper, but includes a molded plastic ridge seal similar to the mating surfaces on a ziploc bag.

METAL

Metal zippers are the classic zipper type, found mostly in jeans and pencil cases today. All these zippers are basically made from flat wire.
